

Automuter

Step-by-step Installation Guide

- Download AutomuterSetup.exe from <http://www.automuter.com/>
- Run AutomuterSetup.exe. Automuter Setup Wizard will appear. Click 'Next' on the welcome screen.
- Read and accept License Agreement. Click 'Next' if you agree to the terms of License Agreement.
- Select installation folder. You can leave this field as suggested by installer. Click 'Next'.
- Select folder name in Start Menu. We recommend leaving default value here. Click 'Next'.
- Check 'Create a desktop icon' checkbox if you want to place Automuter icon on your desktop. Click 'Next'.
- Click 'Install' to complete the installation.

First run

- When you first run Automuter dialog box will appear. Uncheck 'Start Automuter when OS starts' checkbox unless you want Automuter to be launched on every Windows™ start. This option is checked by default. Press 'OK'.

Registration

- Run your favorite internet browser. Point it to <http://www.automuter.com/order.html>
- Follow the instructions on the web page.
